

ScanCom do Brazil ISO 9001:2008 Certification

ScanCom press release October 27th, 2007

On October 27th, 2009, ScanCom do Brasil was audited by the worldwide known company Bureau Veritas Certification which has recommended the SCBR Quality Management System to be certified by ISO 9001:2008 with the following scope: "Eucalytus logs process into wet, pre-dried and dried timber, for export and commercialization in the local market", recognized by the UKAS (United Kingdom Accreditation Service).

The certification demands us new responsibilities, stronger commitment and certifies that all improvements applied in SCBR processes, from the production lines to the administration, from internal controls to shipment of products to our customers, showed positive results as expected and both the company certified as partners and customers have the conviction to follow the right path with firm steps, where all share in the benefits provided.
