

Success of the Marina Lounge set at Spoga 2009

ScanCom press release September, 2009

Our Marina Lounge set was selected as one of the 10 most innovative outdoor products at the latest Spoga Fair in Germany last September 2009.

The Marina Lounge set has benefited from a large public exposure at Spoga. Its unique design and combination with a great wood coating and cushion color lead to its success at the fair. Thanks to this great exposure we got various articles in industry and Spoga magazines like the one below.

The Marina Lounge set is being sold this season to some major retailers in Europe like CASA, BAUHAUS and ISKU.
